

THE
Beljanski
FOUNDATION
(a 501(c)(3) nonprofit organization)

December 3, 2016 – The Lotos Club
**Symposium: For An Effective Non-Toxic Natural
Answer to Cancer
& Cocktail Reception and Auction**

Symposium for Healthcare Professionals (9:00 AM – 4:00 PM)

The highlight of the symposium will be the past, present and future advancements in research on a natural and effective approach to cancer, based upon the innovative work of Pasteur Institute researcher, Dr. Mirko Beljanski.

Dr. Beljanski's holistically focused research on botanical extracts, revolutionary at the time, has gained tremendous momentum and further acceptance in recent years. His botanical extracts stand apart due to his rigorous research with the highest quality, non-toxic natural ingredients.

Mirko Beljanski (1923-1998), biochemist and biologist, spent his professional career at the Pasteur Institute in Paris, studying the causes and mechanisms of gene activation, DNA duplication, and cell division in both normal and malignant states. Over the course of many years, Dr. Beljanski studied the toxicological and pharmacological properties of botanical extracts from *Pao pereira* and *Rauwolfia vomitoria*. He analyzed their mode of action in vitro and in vivo and found that both extracts destroyed cancer cells, but did not cause any toxicity in healthy cells. In addition, Dr. Beljanski was one of the first biologists to study small RNA fragments, which play an important role in the generation of specific cell populations. Some RNA fragments stimulate the formation of white blood cells and platelets. Dr. Beljanski discovered that they not only help maintain normal white blood cell and platelet levels that fall to dangerously low levels due to radiation therapy and chemotherapy, but they also preserve normal ratios among the various kinds of white blood cells, including those that fight infections.

Attendees will hear results of clinical trials as well as past research and current programs being conducted around the world on select botanical products. Presenters will include **Michael Schachter, MD**, head of the Schachter Center for Complementary Medicine, **Qi Chen, PhD**, researcher at Kansas University Medical Center, **Jillian Capodice, LAC**, from Mt. Sinai Health System, and **James Grutsch, PhD**, who oversaw the clinical trial on RNA fragments at the Cancer Treatment Centers of America. These scientists will discuss the results of their research and their practical experience using the natural approach developed by Dr. Beljanski.

Please share with us the contact information of your colleagues who might be interested in attending the event and learning more about an alternative and natural approach to health.

Eat, Drink and be Charitable Cocktail Reception and Auction (4:30 PM – 6:30 PM)

Following the Symposium, The Beljanski Foundation will be hosting a cocktail reception and fundraiser to support its continuing cancer research. In light of the excellent results already obtained on precancerous cells, cancerous cells and even on cancerous cells which have become chemo resistant, The Beljanski Foundation has teamed up with Kansas University Medical Center to start a new research program to study whether the *Pao pereira* and *Rauwolfia vomitoria* extracts are also active against cancer stem cells.

As part of the event a silent and live auction will be held.

Please consider supporting cancer research through the work of The Beljanski Foundation

If you wish to donate an item to assist The Beljanski Foundation or make a donation, please contact The Beljanski Foundation at 646 808 5583 or at media@beljanski.org

Fund generated through this event will go directly to The Beljanski Foundation to finance its important and innovative research against cancer.

Your tax-deductible gift can be a wonderful way to honor or memorialize someone. You can make your donations online or mail a check.

Tickets available at www.bit.ly/natural-answer-cancer

Program

December 3rd, 2016 - The Lotos Club

Welcome breakfast reception

Opening remarks

Sylvie Beljanski, Vice-President of The Beljanski Foundation

The Beljanski Legacy

Movie

Break

Reassessing approaches to integrative oncology

Michael B Schachter MD, CNS, Founder and Director of the Schachter Center for Complementary Medicine

***Pao pereira* and *Rauwolfia vomitoria* anti-cancer activity in Prostate Cancer cell models**

Jillian Capodice LAC, Assistant Professor, Director Program for Integrative Urology and Wellness, Department of Urology, Icahn School of Medicine, Mount Sinai Health System, NY, NY

Lunch

The anti-cancer effects of *Rauwolfia vomitoria* and *Pao pereira* extracts

Qi Chen PhD, Department of Pharmacology, Toxicology & Therapeutics, Integrative Medicine, University of Kansas Medical Center

RNA fragments ameliorate chemotherapy induced thrombocytopenia in cancer patients.

James Grutsch PhD, Assistant Professor, University of Illinois School of Public Health

Break

The originality of Mirko Beljanski's discoveries

John Hall PhD, Scientific Advisor, The Beljanski Foundation

The Beljanski Approach to Wellness/ Training

Josephine Scandale, Certified Holistic Health Coach

Concluding Remarks

Sylvie Beljanski, Vice-President of The Beljanski Foundation

Cocktail Reception and Auction: "Eat, Drink and Be Charitable"

Cocktail reception and fundraiser to support ongoing cancer research

Tickets are available at www.bit.ly/natural-answer-cancer

Research Partners:

The Beljanski Foundation, Inc. | TEL 646 808 5583
5 Tudor City Place #2209 | WEB www.beljanski.org
New York, NY 10017 | EMAIL info@beljanski.org

The Beljanski Foundation is a 501(c)(3) nonprofit organization based in New York City

RSVP

December 3rd, 2016 - The Lotos Club

Please RSVP by November 5, 2016

Online

Tickets are available at www.bit.ly/natural-answer-cancer

By mail

I would like to reserve the following tickets:

- I will attend the Symposium: For An Effective Non-Toxic Natural Answer to Cancer _____ x \$100/pers
- I will attend the Symposium and the Cocktail Reception _____ x \$300/pers (\$75 tax deductible)
- I cannot attend but I would like to support The Beljanski Foundation with a tax-deductible donation of \$_____

Name: _____

Company: _____

Address: _____

City: _____

State: _____

Zip: _____

Telephone: _____

Email: _____

Method of Payment

Check enclosed

Visa Master Card American Express

Credit card Number: _____

CVC #: _____

Exp Date: ____ / ____

Order Total \$ _____

Signature: _____

Please send your response form to the address below.

Upon receipt of your payment, we will send confirmation of your registration and acknowledgment of your reservation by email.
